To whom it may concern,

Going into semiretirement I decided to sell my homestead. I knew several realtors but struggling to decide as to who to hire so I asked my friend Nickie Creutzmann who she used to help her sell her mother's house. And that's when she referred Ted Rankin. I had an interview with him and decided to go forward with his services. And am happy that I did. There were some anomalies with the property but Ted kept reassuring me that there was a buyer for every house. After helping me through various challenges, the house properly sold for a goodly amount . I recommend his services to anyone considering buying or selling.

Thank you,
