To whom it may concern,

I met Tedd and Brenda years ago, through a marketing piece that arrived at my home in California. Having properties in Texas and specifically in the Dallas -Fort Worth area, after interviewing them I hired them to manage six of my Investment Properties. Within the first year they sold four of those properties and managed the other two for several years. The market had appreciated quite a bit and so I elected to sell the other two starting with the first one which Tedd rehabbed and remodeled for me. Tedd broke records in that neighborhood for sales at that time. My return over that period of time was very good. Then sometime later he rehabbed and updated the next property, sold it and also broke records for sales in that subdivision as well. I am extremely pleased with the sale of the Investment Properties, the rehab and updating that Tedd coordinated as well as the management aspect. I would recommend their services to anyone who for any reason is investing in real estate whether as an Investment Property or personal residence to sell or to buy.

Sincerely,
